PopGrip

POPSOCKETS®

PopGrip

A PopGrip sticks flat to the back of your phone, tablet or case with its rinsable, repositionable gel. Once extended, a PopGrip becomes a media stand for your device, a photo or texting grip, or lower it for a video chat. The possibilities are endless with a PopGrip, and with full color imprinting, so are the imprint possibilities. The back of anyone's phone is prime real estate for any promotion, and the best part is that a PopGrip can be used on almost any brand of phone or phone case.

**For best results, use in conjunction with a phone case. The PopGrip's gel is designed to stick to most materials, but it may have issues sticking to silicone, waterproof cases and textured materials, like leather.*

PopWallet+

The PopWallet+ offers a sleek and secure way to carry important cards on your phone. Includes a built-in PopGrip that extends to become a comfortable grip or media stand, and easily folds flat so your smartphone fits comfortably in a pocket. The base of the PopWallet+ sticks to the back of your phone with a rinsable, repositionable gel. It can hold up to 3 credit cards or 6 business cards, depending on the card thickness. Wireless charging compatible by easily removing the wallet portion. To detach the wallet from base push top left corner and slide right.

*For best results, use in conjunction with a phone case. The PopWallet+'s gel is designed to stick to most materials, but it may have issues sticking to silicone, waterproof cases and textured materials, like leather.

NOTE: To avoid demagnetizing, cards must be removed from wallet prior to charging with a Qi wireless charger.

PopGrip - Golf Ball

A PopGrip - Golf Ball sticks flat to the back of your phone, tablet or case with its rinsable, repositionable gel. Once extended, a PopGrip - Golf Ball becomes a media stand for your device, a photo or texting grip, or lower it for a video chat. The possibilities are endless with a PopGrip - Golf Ball, and with full color imprinting, so are the imprint possibilities. The back of anyone's phone is prime real estate for any promotion, and the best part is that a PopGrip - Golf Ball can be used on almost any brand of phone or phone case.

**For best results, use in conjunction with a phone case. The PopGrip's gel is designed to stick to most materials, but it may have issues sticking to silicone, waterproof cases and textured materials, like leather.*

UVClean Micro

Turn your smartphone into a mobile cleaning device with the UVClean Micro. Like sunlight in your pocket, the built-in Ultraviolet Light uses short-wavelength ultraviolet (UV-C) light to kill or inactivate microorganisms, so you can sterilize on-the-go. This little device uses minimal battery life when plugged into your smartphone using the dual Lightning/Android connector, or with the attached Type-C adaptor. Great for cleaning your toothbrush while traveling, or high-touch surfaces and items like a remote control. Attach it to your keychain for ultimate portability.

- Avoid exposure to direct or reflected germicidal ultraviolet rays.
- Germicidal ultraviolet rays are harmful to the eyes and skin.
- Failure to observe precautions could result in injury to people or damage to property. Use at your own risk.
- Do not use equipment for other than its intended purpose.
- Do not operate equipment if the power cord and/or plug are damaged, or if any other damage to the unit is visible or suspected.
- Keep out of reach of children.

USB 3.0 FLASH DRIVES

Among the improvements, USB 3.0 features a new transfer mode that can transfer data at a rate much faster than standard USB 2.0 drives. USB 3.0 connectors are easily distinguishable from their 2.0 counterparts by the blue color-coding of the ports. To realize the benefits of USB 3.0, you must have 3.0 ports on the device you're plugging into. USB drives are backwards compatible to 2.0 ports, however only 2.0 transfer speeds can be achieved.

Easily distinguishable from their 2.0 counterparts by the blue color-coding of the ports.

iClick 3.0

Known as the MVP, the iClick USB drive is a workhorse of-a-different color (24 to be exact, with the option of silver, matte black, gold or white swivels) and can be done with a full-color imprint, data-loaded and shipped in 24 hours. It has no minimum order quantity and a 24 hour turnaround with no rush fees. Measures 2.25" x 0.8" x 0.4" in size and comes standard in Security Sealed, Recyclable Packaging.

Concord Type C

Consider the Concord the latest and greatest in USB tech. Featuring dual-ports with Type C and USB 3.0 connections, the Concord is the flash drive of the future. And bonus, both ports are retractable, so no cap to lose. USB Type C ports are roughly the same size as that of a Micro USB connector, meaning they're small enough to work with even the smallest peripheral devices and feature reversible plug orientation (no male to female connectors) so it can be plugged in upside down or right side up. The orientation no longer matters.
