PopSockets® Restrictions - For Distributors

There are 4 restrictions that PopSockets® has placed upon Promo Distributors in representing their products:

- MOQ of 100 for standard PopSockets and MOQ of 50 for premium PopSockets. No less-than-minimum or single unit sales allowed.
- PopSockets® purchased through iClick must advertise **at or above** the approved promotional product pricing, as shown on www.iclick.com
- Cannot be resold to the general public - PopSockets® can only be used for promotional purposes by the end-client, their employees, subsidiaries and authorized dealers.
- Cannot be advertised on 3rd Party Websites targeted at the general public, such as Amazon, etsy, eBay, etc. The only acceptable 3rd Party Website is a company store targeted at the end client's employees, subsidiaries and authorized dealers.
