PopGrip PlantCore™

- 🌱 PlantCore™ made from 35% plant-based material
- 📱 Phone grip and stand
- 🌱 Environmentally friendly

The new PopGrip PlantCore™ is a more environmentally friendly, plant-based PopGrip. Made with 35% plant-based materials to reduce emissions, it's a step forward on the path to a more sustainable future. Like other PopGrips, the PopGrip PlantCore™ sticks flat to the back of your phone with a repositionable gel and features a removable Pop Top for Qi wireless charging compatibility. Once extended it becomes a media stand and grip, making it easier to text with one hand, snap photos, or watch videos hands-free.

For best results, use it in conjunction with a phone case. The gel is designed to stick to most materials, but it may have issues sticking to silicone, waterproof cases, and textured materials, like leather.
